

DATA MODERNIZATION CONSULTING

ACCELERATE YOUR CLOUD TRANSFORMATION USING INDIUM'S DATA CONSULTING JUMPSTART

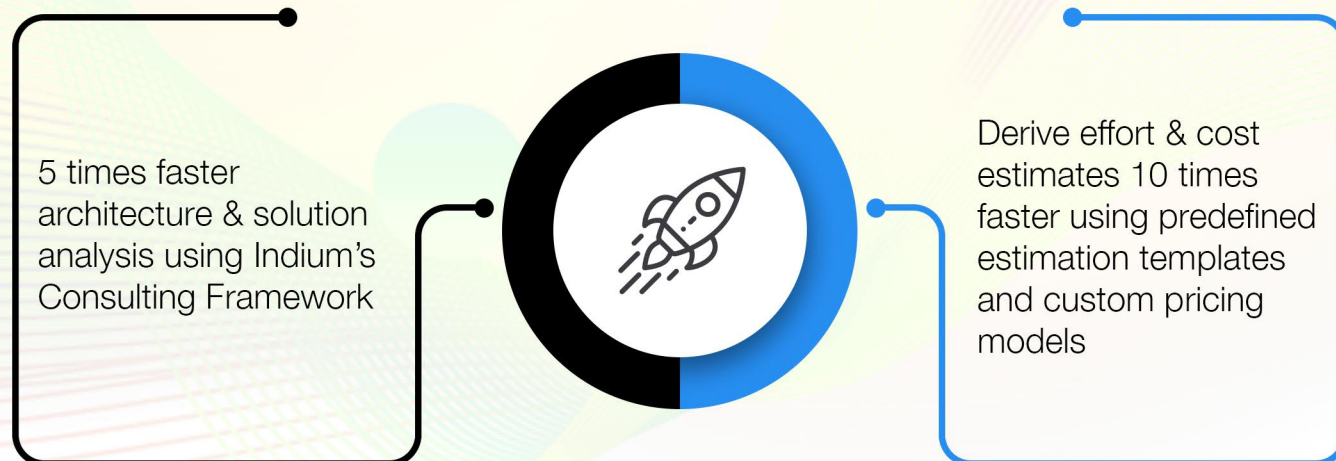

Define the Enterprise Data Ecosystem for Tomorrow, Today in **4 Weeks** at **\$9,900**

End to end solution architecture and implementation roadmap leveraging Denodo and cloud based services like AWS, Azure, GCP et. Al to drive business outcome and product velocity

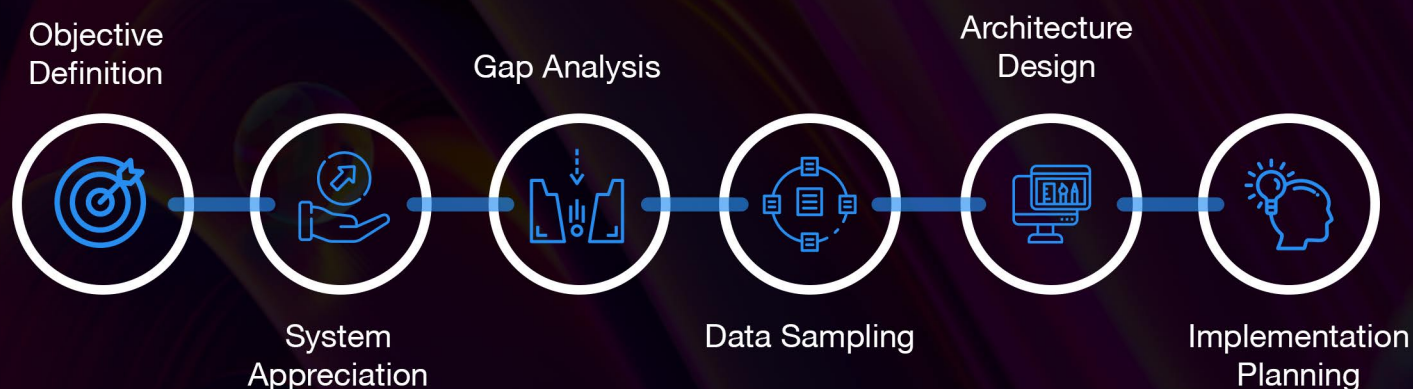

VALUE DELIVERED

- Future State Virtualized Architecture, aligned to the Business vision
- Definition of analytics-friendly conceptual, logical and physical data models
- BRS, SRS and Strategic Road Map
- Engagement & Collaboration Model
- Tentative Program charter to define the project specifics and execution approaches
- TCO Analysis of target state
- Recommendations & Industry Best Practices to meet the identified requirements maximize data virtualization and mitigate any process gaps

VALUE LEVERS

CONSULTING APPROACH

REFERENCE ARCHITECTURE

KEY ACTIVITIES

- Collaborate with key business stakeholders and co-create to identify the core unmet business needs and strategic pain-points
- Map and gap between current and target state
- Assess current technology landscape and avenues of virtualization
- Evaluate market offerings to arrive at best-fit components
- Derive envisioned Tech Architecture & end-to-end Solution
- Triple constraint baselining – Scope, Schedule and Cost

DATA ASSESSMENT CRITERIA

Data Usage Patterns

Data Siloes & Cross-silo usage

Data Growth Rate

Data Virtualization Maturity

Data Life Cycle

Data Temperature Profiles

Data Value Realization

Metadata Maturity

Data Discoverability

CUSTOMER CONTRIBUTION

- | One Business Unit / Division
- | All project related documents must be provided during architecture assessment phase
- | Environment access provisioning aligned to engagement schedule (Applicable for Migration engagements)
- | Access to sample and assess the data elements
- | 100% customer stakeholder availability to liaison the staged interview process, reviews and approvals
